BASIS OF THE COURSE
- The course will be taught by Dr. Adriana Schwartz. This is a unique course, both for the quality of the speaker and the content and design of it.
- The aim of the course is when you go back to your clinic you may begin carrying out the preparation and implementation of the Plasma Gel, CD34+ cells and Concentrated Growth Factors with confidence and thus make a difference.
- This is a very practical course where you go from theory to practice under the supervision of the expert.
- You may acquire the security and confidence to start incorporating this treatment in your daily practice.
- Practices are held on real patients.

AN UNIQUE PRACTICE DESIGN
Our practice program has two parts:
1. MASTER CLASS: The teacher will work with a small group of students.
2. SUPERVISED PRACTICE: Hands-On Session
   Each student will implement in practice the theory by carrying out a treatment supervised at all times by the monitor.

WHY TO DO THE TRAINING WITH US?
- You will learn from the best!! We have a pioneer recognized team in the field of ozone therapy and concentrated growth factors in the world.
- The course has a structured and effective model of training.
- The practice is personalized and supervised by experts.
- The supervised practice included in the program will give you the trust and confidence necessary to start these treatments in your own professional facilities.
- You will be given all the didactic information (in digital version)

WHAT WILL BRING THIS COURSE TO YOU?
- It will be a unique and unforgettable experience of your professional development.
- Boost your abilities.
- Expand services to your patients.
- Security and trust.
- Overcome your fears.
ATTENDANCE AND DELIVERY OF CERTIFICATES
